

WORKING TOGETHER TO DEVELOP NEW USES FOR THE SOLAR ROAD

5 years of research with French National Solar Energy Institute. Wattway is currently being tested on trials sections in France and around the world

90% of the time, roads are free of vehicle traffic and facing the sky

Wattway provides a second function to roads (producing electricity)

Turnkey solutions

Direct use

Electricity for remote sites

WHAT WOULD YOU DO WITH WATTWAY ELECTRICITY?

WATTWAY TRIAL SITES AROUND THE WORLD

Le Port, Reunion Island - 25 m²

Turnkey solution
(charging station)

Tourouvre, France - 2,800 m²

Grid feeding

West Point, GA, USA - 50 m²

Direct use (tourist office)

Labergement, France - 75 m²

Producing electricity for
electricity syndicate
