

**NON-COMPLIANCE WITH WEIGHT REGULATION :
EXTRA TOLL TO BE CHARGED !**

Non compliance with regulation on maximum vehicle or axle weight can lead to significant damage to the road pavement and even structure, causing extra and unplanned repair or maintenance costs.

To ensure that these extra costs are not beared by all the users or by the concessionnaire only, but by the vehicle responsible for the risk, Atlandes will execute article 25.8 of the concession contract, allowing an extra amount of toll to be charged.

For year 2021, this extra toll is fixed as follow :

Classes A and B :	10€
Classes C :	13 €

This extra toll may be charged by Egis Exploitation Aquitaine or Atlandes staff following a control by state agents.
